

Name: Mr Stuart Saville
Parent Governor

I have been a Parent at Vernon Park Primary School for 18 months. I wanted to have a greater contribution not only to my own child's school life but also that of each and every other child here.

Having gone through education to Undergraduate level myself I know first-hand how important education is to a child's life. I feel that every child should be encouraged to fulfil their optimum potential, whatever that may be.

In addition to the academic side of our school I am also passionate in my belief that children should be encouraged to develop themselves emotionally and socially. I feel privileged that my child can have access to this at Vernon Park as we are very fortunate to have a Learning Mentor that not all schools have.

I also firmly believe that as Parents we should all be safe in the knowledge that whilst our children are at school they are safeguarded to the highest standards. This is something I already know Vernon Park takes extremely seriously.

As a Parent Governor I hope to ensure that Vernon Park continues to improve on its fantastic progress in recent years.
