

We will share appropriate information when additional support is needed or requested for children and families. Schools and key agencies will follow government guidance on information sharing when considering and explaining support available from the TAS.

Families working with the TAS team will have access to support from:

- Stockport Family School Age Plus Worker
- School Nurse
- Linked Social Worker
- Other relevant professionals linked to the school who work with children and families

Team Around the School

Where can I find out more?

For more information please contact your school for the name and contact details of the Stockport Family School Age Plus Worker or visit

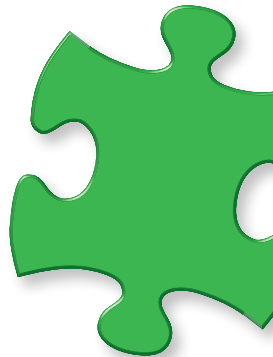

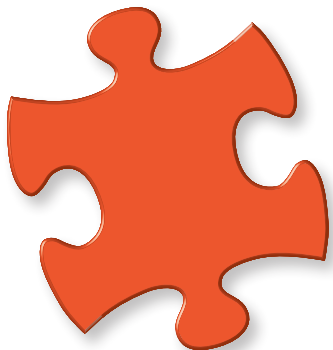

www.stockport.gov.uk

Stockport **NHS**
NHS Foundation Trust

www.stockport.gov.uk

What is Stockport Family?

Stockport Family is the name used for all services working with children and families in Stockport.

What is Team Around the School?

The Team Around the School (TAS) is a partnership between schools, Stockport Family and other agencies who will work together with you to offer early help and support. It is intended that this will help support children and families in Stockport better.

How will we know what children and families need?

As a parent you know your child better than anyone else; services involved in the TAS want to support the development of relationships with families to ensure professionals and parent/carers are working together.
